CSP ERANET Additional Call 2021 Infoday for Spanish applicants

10:15 - 10:30 General aspects of the CSP ERANET Additional Call
Julio Marchamalo (AEI-FECYT, Spain)

Introduction

The **CSP ERANET Additional Call 2021** is carried out by national and regional research and technology development (RTD) and innovation programmes, and national and regional Funding Agencies in the field of concentrating solar power (CSP) or solar thermal electricity (STE).

The following countries and regions are participating in the CSP ERANET Additional Call: **Germany and North-Rhine-Westphalia, Spain, Turkey, Switzerland and Israel.**

Spain

Switzerland

Germany

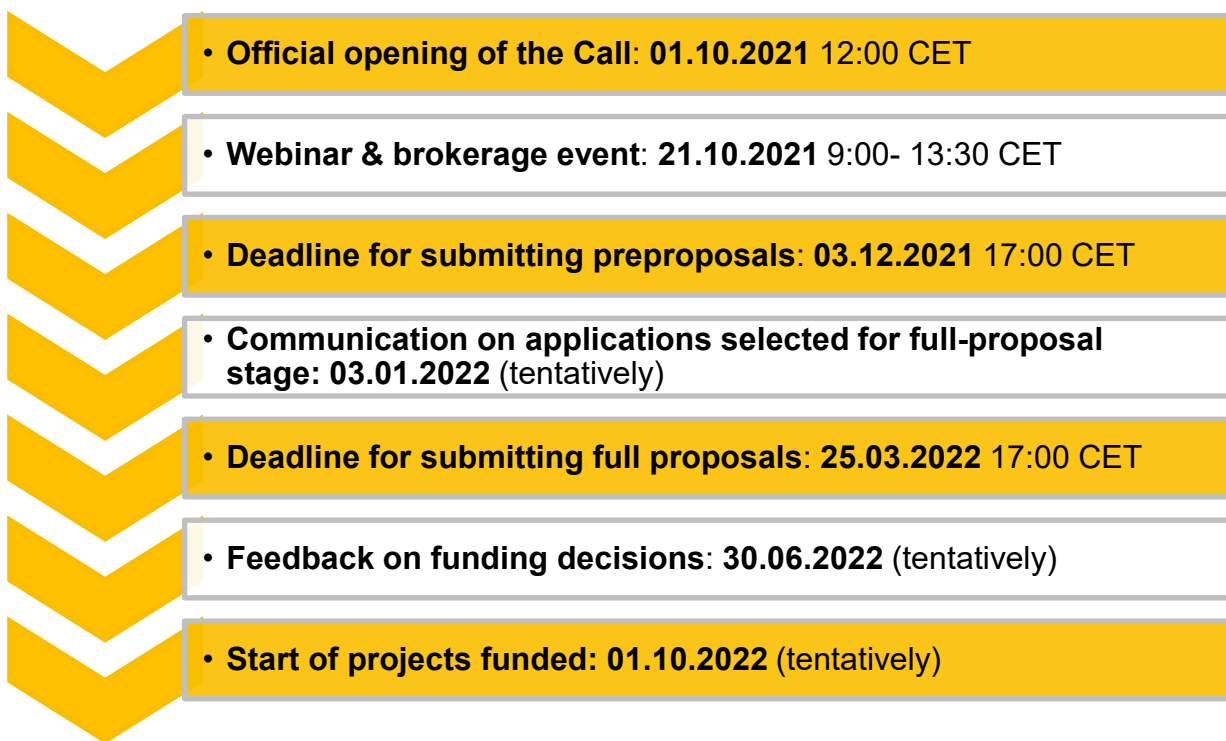

Israel

Turkey

Call Calendar

Organizations & Funding

Country, Funding Party	Funding [EUR]
Germany – PtJ	3.000.000
Germany – ETN	500.000
Israel – Ministry of Energy	600.000
Spain – CDTI	500.000
Spain – AEI	500.000
Switzerland – SFOE	250.000
Turkey – TÜBİTAK	700.000

Total Funding: 6.05 M€

Call Topics

- 1 Advanced linear Fresnel technology
- 2 Parabolic trough with molten salt
- 3 Parabolic trough with silicon oil
- 4 Open volumetric air receiver
- 5 Improved central receiver molten salt technology
- 6 Next generation of central receiver power plants
- 7 Multi-tower beam down system
- 8 Advanced TES (Thermal Energy Storage)

- **Scope and subtopics** are available at the [Guidelines for Applicants](#).
- Applicants have to **check with their national / regional contact points** whether the project idea fits within the national / regional constraints as early as possible but at least before submitting a preproposal.

Eligibility Criteria

Applications submitted through the **ESS** within the deadline.

Eligible consortia shall consist of a **minimum of 3 partners from 2 different countries** participating in the **CSP ERANET Additional Call** and providing funding to the project selected.

At least **one industrial partner** in the consortium

Additional partners are allowed (from countries not participating in this call) but they have to **finance their activities** from other sources and include a **letter of commitment** to the proposal.

All applicants have to fulfil (additional) eligibility criteria of their respective national/regional funding organisation and have to **contact their national/regional agency** as early as possible.

The project duration is limited to **max. 36 months**.

Who can apply

SME & large
companies

Non-profit
research
organisations

Higher
education
institutions

Public and
public
research
organisations

According to their national/regional financing regulations (see Annex-National/Regional Requirements of the Guide for Applicants).

CDTI: **empresas con ánimo de lucro** (grandes o pymes) establecidas y que desarrollan actividades de I+D+i en España

AEI: **organismos de investigación sin ánimo de lucro** (como universidades, instituciones públicas de investigación, centros tecnológicos y otras instituciones privadas sin ánimo de lucro que realicen actividades de I+D+i en España).
