### TOPICS OF INTEREST

***Please insert the topics or areas of interest.***

Cluster 2: Culture, Creativity and Inclusive Society, Destination 3: Innovative research on social and economic transformations, Topic 5: Integration of emerging new technologies into education and training

Project 'Shall we dance': How emerging technologies (e.g., robot, artificial intelligence, augmented, mixed and virtual reality) can help adults and children with mental disability (e.g., autistic, Down's syndrome, ADHD, etc) to dance. We will investigate to what extent these emerging technologies can be incorporated into dance education and training of adults and children with mental disability in order to provide more learning opportunities, and foster their confidence, concentration, independence, teamwork, interaction with non-disabled people and ultimately their well-being and productivity at work.
