#FUTURE4PRIMA #HorizonEU

RELEVANCE of F4P TO THE WIDE ERA CALL

HORIZON-WIDERA-2023-ERA-01-01:

Programme level collaboration between national R&I policy-makers call aims to enhance the coordination and alignment of national and regional research and innovation (R&I) policies and funding programs, thereby strengthening the ERA and contributing to the EU's broader R&I goals.

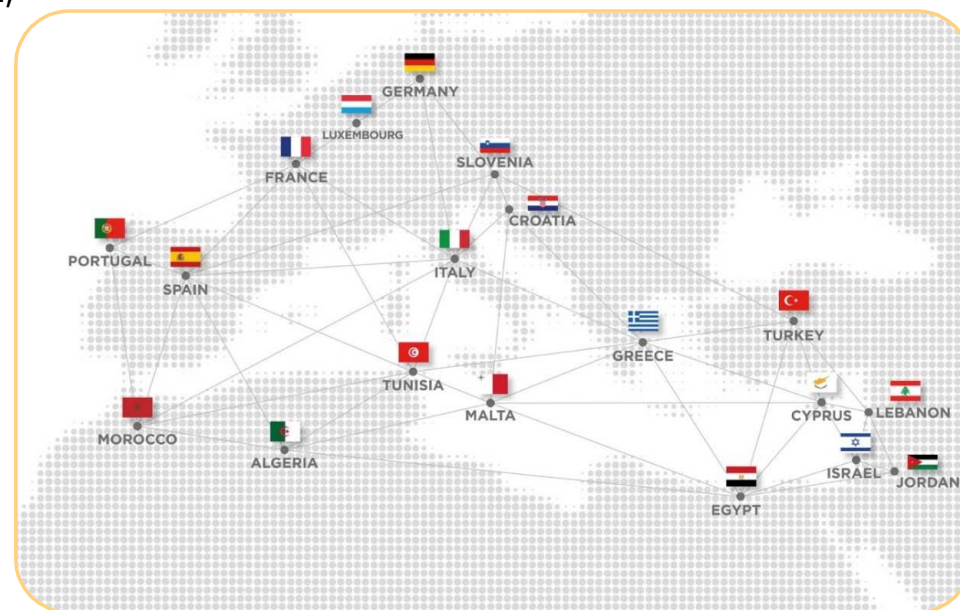

Prioritizing investments and reforms in research and innovation;

PRIMA EU PARTNERSHIP renewed under FP10

Understand the Call Objectives and Align Your Proposal:

- Carefully study the call objectives and ensure that your proposal aligns with the specific requirements and expected outcomes.
- Demonstrate how your project will contribute to the broader goals of the ERA and address regional disparities

future4prima.eu

#FUTURE4PRIMA #HorizonEU

OBJECTIVES

Core questions:
What should be achieved (for the expected impact)?
Project objectives are linked to your concept and approach

Enabling environment

To establish a conducive setting for cross-sector R&I collaborations and strategic coordination among research funding organizations. This is essential for addressing global challenges such as resource efficiency and climate change.

Improve regulatory aspects

By facilitating the adoption of improved regulatory measures, we aim to strengthen R&I cooperation and enhance the international dimension of the ERA

Accelerate

The market uptake of innovations and stimulate innovation ecosystems in widening their southern neighborhood countries

Monitor

Access to information and tools to measure progress on the achievement of the EU Green Deal and the SDGs

EUROPEAN UNION

APPROACH

Reinforce & enlarge collaborations across widening

strengthen existing collaborations, extend them beyond the current partnership and enable aligning and redirecting funding streams towards new shared priorities addressing common global challenges

Co-creation and participatory approach

relevant stakeholders through establishment of 2 stakeholder board.

Methodology

Describe main ideas, models, hypothesis, and inter-disciplinary considerations

Extend thematic focus: Nexus

to complementary fields, and add an integrated management approach of resources, including ecosystems, energy and health, beyond those original of PRIMA SRIA.

Stimulate uptake of results

aligning this process with real market and social needs, promoting relations among governments, enterprises, researchers and citizens for ensuring a sound sustainability and longevity.

EUROPEAN UNION

CONSORTIUM

Build a Strong and Diverse Consortium:

1. Involve partners from both widening and non-widening countries to foster collaboration and knowledge exchange.
2. Ensure that the consortium has the necessary expertise and complementary skills to achieve the project's objectives.

EUROPEAN UNION

IMPLEMENTATION

Provide clear plan, be concise

WP1. Project Management

WP2. Strategic planning

Enabling environment to enhance cross-sector R&I collaborations, strategic coordination, between RPO/RFO to address common challenges.

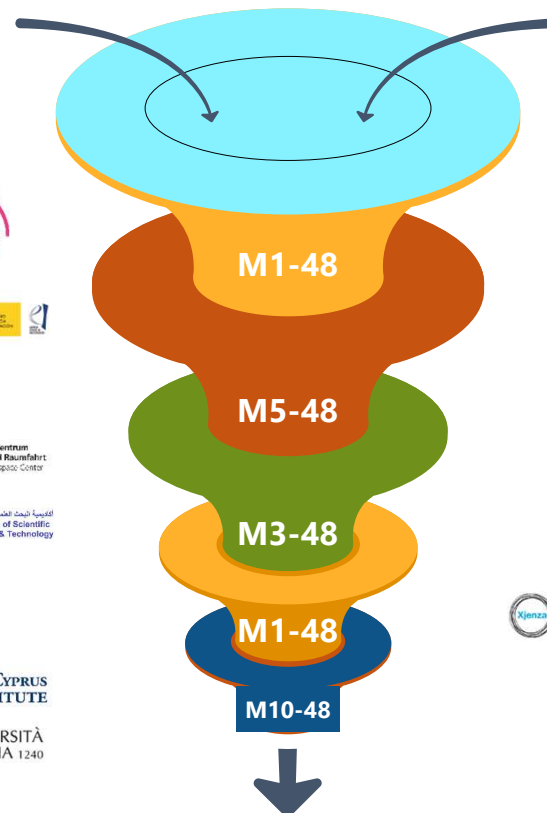

WP4. Enhancing innovation

Accelerate the uptake of innovations to the market and strengthen innovation ecosystems in widening and southern neighborhood countries

WP6. Fostering progress

Granting access to information and tools to measure progress on achievement of EU Green Deal and SDGs

WP7. DEC

WP3. Support alignment

Fostering policy uptake of improved regulatory aspects to facilitate R&I cooperation strengthening ERA international dimension

WP5. Widening actions

To enlarge the partnership to drive the strategic planning of the collaborations across Europe and towards widening countries and beyond

EUROPEAN UNION

EXPECTED RESULTS

Results: know-how, innovative solutions, proof of feasibility, new business models, policy recommendations, guidelines, prototypes, demonstrators, databases and datasets, networks, etc. 'Intellectual Property'

Strategic Plan with shared R&I priorities

Joint Programme with the R&I strategic orientations and PS' planned financial contributions for a renewed partnership

Pilot acceleration programme and guidelines, and **monitoring tools** for measuring progress towards meeting the EGD and SDG goals

Policy recommendations on the harmonization of R&I funding procedures and regulatory framework, and upscaling the maturity of project results

EUROPEAN UNION

OUTCOMES

Project's pathway towards impact

Provide links with WPs,
Identify Target groups i.e
national research
agencies

Identification of common R&I priorities developed considering international scenarios and trends leading to the development of coordinated R&I funding agendas

- **PP1** – Adoption of PR1 by +35 EU RFO and beyond, including at least 11 HE widening countries (7 currently members of PRIMA and 4 potential newcomers)
- **PR1** – PRIMA Strategic Plan will identify research and innovation priorities in managing resources and their interlinkages embracing other dimensions such as human and planetary health.

Implementation of multiannual joint calls to fund transnational collaborative R&I projects

- **PP2** – Collecting resources for (+14 calls) multiannual joint calls to be launched in the funding period of PRIMA2 (2028-2035) for transnational R&I projects and other joint calls or activities.
- **PR2** – Planned financial contributions committed by at least 19 PS ministers

Implementation of joint activities supporting technology development, market introduction, regulatory aspects and societal uptake of results.

- **PP3** – Facilitating the adoption of PRs by 45 relevant actors
- **PR3** – Pilot acceleration programme
- **PR4** – Guidelines to support the TRL maturation
- **PR5** – Policy recommendations

Contribution to PS meeting Global Challenges, including relevant contributions to the SDGs

- **PP4** – Setting up a monitoring system to assess the achievement of SDGs through R&I and providing evidence to policymakers on how Euro-Med projects contribute to the global challenges and SDGs
- **PR6** – Policy recommendations, SDG assessment tool.

PROJECT'S PATHWAY TOWARDS IMPACT

**Project's
pathway towards
impact**

Specific contribution that projects can make to the expected outcomes and impacts set out in the Work Programme

**Project
Results**

...know-how, innovative solutions, proof of feasibility, new business models, policy recommendations, guidelines, prototypes, demonstrators, databases and datasets, networks, etc. 'Intellectual Property'

During project implementation

**WP EXPECTED OUTCOME
(described in topic)**

**PROJECT'S CONTRIBUTION TO
THE EXPECTED OUTCOME**

...uptake, diffusion, deployment, and/or use of project's results by direct target groups.

Shortly after the end of the project

**WP IMPACT
(described in Destination)**

Effects

**PROJECT'S CONTRIBUTION
TO THE EXPECTED IMPACT**

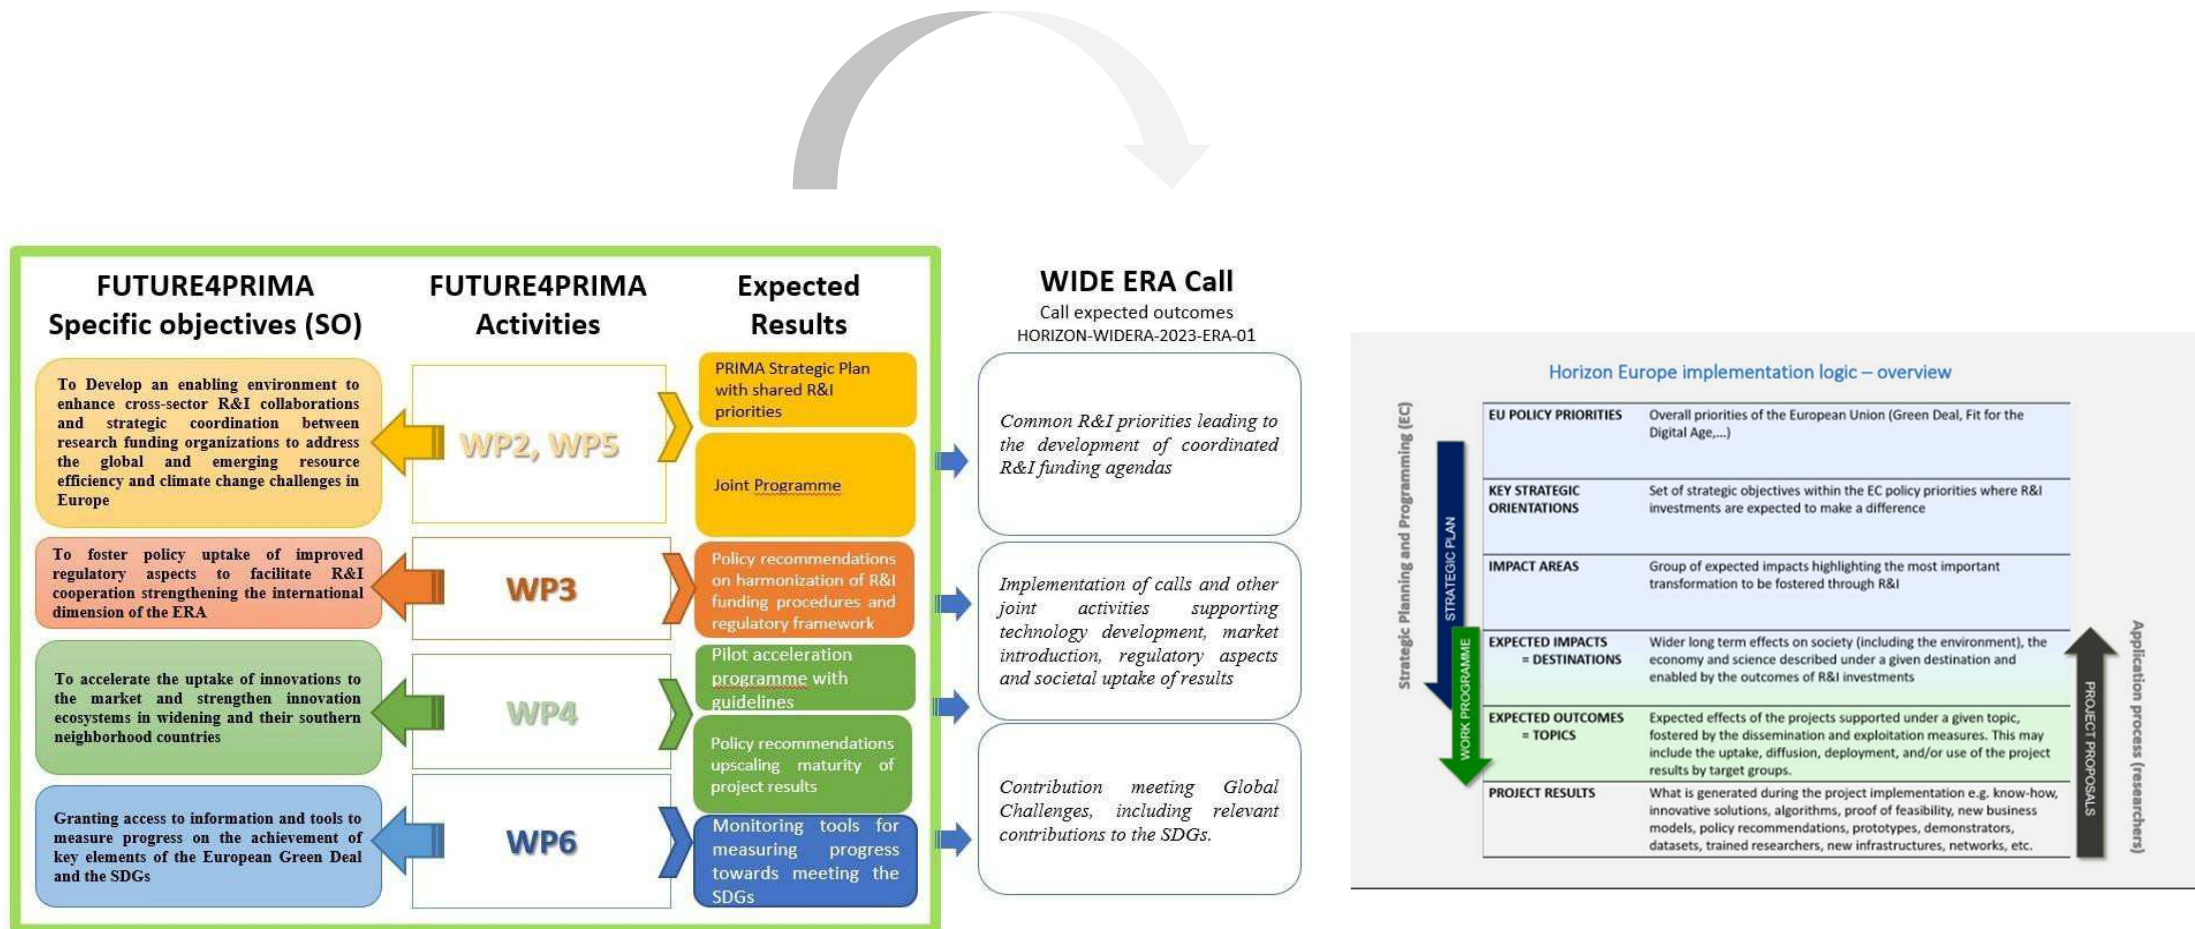

Wider long-term effects on:

- **Society (including the environment)**
- **Economy**
- **Science**

enabled by the outcomes of R&I investments.

Some time after the end of the project

F4P Results and Contribution to Call Expected Outcomes

IMPACTS

FUTURE4PRIMA

Optimized national funds by pooling resources for shared priorities.

Advancement in strategic fields like EGD, EU Strategy on Climate Change Adaptation, EU Water Framework Directive.

Reduced regional disparities and increased cohesion in specific areas.

Enhanced efficiency of R&I international cooperation among HE-widening countries.

Improved excellence, researcher mobility, and establishment of new centers of excellence.

Tip for Applicants:

- Clearly articulate the long-term impacts of your project. Demonstrate how your project will contribute to broader societal and environmental goals.
