JORNADA INFORMATIVA presencial

COST: Cooperación Europea en Ciencia y Tecnología en Horizonte Europa

10 de junio de 2025

Ministerio de Ciencia, Innovación y Universidades (sala A-Planta 2)

Paseo de la Castellana 162-Madrid

Agenda (VERSION 15 de mayo de 2025)

Es obligatorio el registro previo para asistir, en el siguiente [ENLACE](#)

10:00 – 10:30	Registro de participantes
10:30 – 10:50	Bienvenida institucional. Representante MICIU Representante FECYT
10:50 – 11:45	Programa intergubernamental COST. Novedades del programa. Claves para una propuesta exitosa. Almudena Agüero COST-CSO. MICIU Noelia Romero COST-CNC. OE de FECYT
11:45 – 12:00	Descanso
12:00 – 12:20	Presentación del caso de éxito LIAISE - Acción COST CA22110. Dña. Almudena Muñoz Puche – Coordinadora y Grant Holder. Asociación Empresarial de Investigación Centro Tecnológico del mueble y la madera de la Región de Murcia
12:20 – 12:40	Presentación del caso de éxito TREASURE - Acción COST CA22114. Dr. Rafael A. Caparros-Gonzalez– Coordinador y Grant Holder. Universidad de Granada
12:40 – 13:00	Presentación del caso de éxito DepolarisingEU-Acción COST CA22165. Dr María Luengo Cruz – Coordinadora y Grant Holder. Universidad Carlos III de Madrid
13:00 – 13:20	Mesa redonda: Debate sobre la gestión de acciones COST En este bloque pretendemos plantear cuestiones prácticas que se deben abordar como Grant Holder de una acción COST. Para ello, contaremos con tres personas que asumen el rol de GH.
13:20 – 14:00	Cierre de la jornada – aperitivo NETWORKING

El programa

“The opportunity for science lies in creating an unlimited space where crossovers between ideas and people can change the world for the better.”

Open Call for new COST Actions

1. Idea & Team

Bottom-up approach: propose your innovative idea on a specific challenge leading to an S&T breakthrough

You must be at least seven peers from seven COST Members, of which half inclusiveness Target Countries

2. Proposal & Submission

Submit online your anonymous proposal via the e-COST platform

Info and guidelines: www.cost.eu/opencall

3. Evaluation & Selection

Independent External Experts and ad-hoc Review Panels carry out the evaluations of proposals

The COST Scientific Committee makes the selection of proposals based on the evaluations

4. Approval & Launch

The decision of approval and four-year funding for new Actions relies on the COST Committee of Senior Officials

New COST Actions kick off in the following Autumn with the first meeting of the Management Committee

Collection date 2025

October 21 noon

Watch our video 'Tips for submitting a winning COST Action proposal'

Video 17 minutes duration, July 2024

Open Research Europe

- ORE is the EC's Open Access publishing platform for scientific articles for Horizon Europe.
- As from 30 September 2022, COST Actions can submit directly to this publishing venue, free of charge.
- ORE is a reliable peer-reviewed publishing service of high scientific quality, with swift publication times.
- Submitted publications must be **original**, not be submitted anywhere else for publication, and **stem from COST Actions**. ORE accepts articles in all fields of science.
- Please note that this is complementary to the existing Open Access expenses covered by the COST rules.

For more info visit the ORE website: <https://open-research-europe.ec.europa.eu/>

MENU

The COST Strategic Plan introduces the Cross-Cutting Activity (CCA) as a tool to better connect policy makers

share best practices. The primary beneficiaries of the outcomes will be COST Action participants and the wider R&I (policy) community in Europe.

Cross-Cutting Activity on career development for young researchers

Launching in December 2024 this new Cross-Cutting Activity dives into the need to improve career development conditions to attract and retain the best researchers in Europe. It will run until November 2026.

A unique network, consisting of (young) researchers, career advisory experts and key stakeholder organisations, will work together towards achieving a more balanced brain circulation and improved career development of young researchers. This CCA will be guided by the Council Recommendation on a European Framework to attract and retain research, innovation and entrepreneurial talents in Europe (2023) and European Charter for Researchers (2023).

As a **proposer**
of a new COST Action

As **expert** to evaluate
submitted proposals

As a participant in a running Action (I/III)

The screenshot displays the COST Actions website interface. At the top, the COST logo (European Cooperation in Science & Technology) is on the left, and navigation links for 'COST Actions', 'Funding', 'COST Academy', and 'About' are in the center. A green 'Open call' button with the text 'Fund your network' is on the right. Further right are icons for 'SEARCH', 'e-COST', and 'MENU'. Below the header, the main heading 'Browse Actions' is prominently displayed. A breadcrumb trail shows 'Home > COST Actions > Browse Actions'. A search bar contains the placeholder text 'Action or Innovators Grant number or text', with an orange 'Search' button to its right. Below the search bar, there is a checkbox for 'Search in Title Only' and a link for 'More filters'. The results section shows a single entry for 'IG18130' with a date range of '01/09/2023 - 31/10/2024'. To the left of the entry is a small icon of a globe with 'WWW' and a cursor pointing to it. Below the entry, the URL 'https://www.cost.eu/cost-actions-event/browse-actions/' is provided.

OBJECTIVES

2.4.4. COST MISSION AND POLICY

Please complete this part online. Describe how the proposal addresses the COST Mission and Policy (see Section 1.1).

N.B.: The content of this section will be assessed at the selection phase by the Scientific Committee for those proposals reaching the selection zone (Section 3.1.3).

Table 6: Online part of the proposal regarding the COST Mission and Policy.

COST Mission and Policy
• Mandatory • Max. 1000 words • This is a free text section to explain how the Action proposal will address the COST Policy with regard to: 1. ensuring a geographical balance, and involving participants from Inclusiveness Target Countries (ITC); 2. Young Researchers and Innovators (YRI)¹³; 3. addressing Gender balance¹⁴. • This part should describe the plans to address each of these three targets.

excellence
technology

research

cultural changes in
national
ms

COST Excellence and Inclusiveness Policy

Proposals failing to achieve the overall threshold shall not be funded.

7. PROPOSAL SELECTION

Ahead of the meeting, the Scientific Committee shall receive the reports of the Review Panels as well as information on the composition of the network of proposers and other information considered relevant on the proposals, such as:

- Aggregated information on the network of proposers (breakdown, expertise, geographic, age and gender distribution);
- Plans to involve relevant participants or targeted stakeholders; openness to additional participants.

Based on this information, the Scientific Committee shall establish the shortlist of proposals for approval by the CSO.

In order to do so, the Scientific Committee shall:

1. Adopt the list of proposals which are of sufficiently high quality to be retained for possible funding based on the available budget for the call (the retained proposals);
2. Select among the retained proposals the ones for the final list on the basis of the following criteria applied sequentially:
 - a. S&T Excellence, Networking Excellence, Impact and Implementation as described in 6.3.
 - b. Compliance with COST Excellence and Inclusiveness policy with regard to Inclusiveness issue. A high degree of compliance with it shall be achieved by proposals that build the capacity of COST Inclusiveness Target Countries to engage in the European Research Area by:
 - i. Having very well-defined plans for including COST Inclusiveness Target Countries participants in the implementation of the Action; and/or
 - ii. Being led by a Main Proposer from an ITC.
 - c. Applied with equal weight:
 - i. Compliance with COST Excellence and Inclusiveness policy with regard to Young Researchers and Innovators (YRI). A high degree of compliance with it shall be achieved by proposals:
 1. Presenting a high proportion of Young Researchers and Innovators in the Network of Proposers; and/or
 2. Having very well-defined plans for including Young Researchers and Innovators in the implementation of the Action; and/or
 3. Led by a Main Proposer being a Young Researcher and Innovator.
 - ii. Compliance with COST Excellence and Inclusiveness policy with regard to Gender balance. A high degree of compliance with it shall be achieved by proposals:

1. Presenting a good gender balance; and/ or
 2. Having very well-defined plans for achieving gender balance in the implementation of the Action; and/or
 3. Led by a Main Proposer of the underrepresented gender.
- d. For proposals that shall be deemed equivalent after application of criteria under 2. a to c, achieving a balanced COST Actions' portfolio and promoting interdisciplinarity. This shall be done by selecting proposals addressing Research Areas and/ or Science Sub-Fields that are less extensively covered among the existing COST Actions' portfolio and those that are of a more interdisciplinary nature.

Detailed procedure shall be described in the [COST Open Call Applicants' Guidelines - Submission, Evaluation, Selection and Approval \(SESA\)](#)⁷. The Scientific Committee (SC) shall submit the final ranked list of selected proposals to the CSO for approval.

The SC shall adopt a SC recommendation per selected proposal and a SC comment per non-selected proposal among the retained proposals.

8. PROPOSAL APPROVAL

The final decision on approval and funding for new COST Actions shall be taken by the Committee of Senior Officials (CSO) on the basis of the shortlist submitted by the Scientific Committee, together with a list of the evaluation results of all evaluated proposals taking into account the available budget. The CSO may decide not to approve Actions selected through the procedure described under paragraphs 5 to 7 of the present rules.

The Technical Annex of a successful proposal approved by the CSO shall form the basis of the Action's Memorandum of Understanding (MoU). The start of the COST Action shall be described in the [Annotated Rules for COST Actions](#).

COST Excellence and Inclusiveness Policy

- Fomentar el liderazgo (lider o vicelider de Acción, de WG, coordinadores de STSM...) para cada uno de los grupos (ITCs, YRIs, women), y explicarlo en la propuesta. **Ejemplos:**
 - At least one key leadership position in the MC, TGs and WGs will be reserved to an ITC member. ITCs will be given special priority for the organization of events, Short Term Scientific Missions and other activities. The TGRs, following advice of the WGs, will put special attention in recruiting members from ITCs.
 - The YRIs represent only a 20% of the total proposers and therefore special effort will be made to further extend the participation of other YRIs. The involvement of YRIs in the MC, TG and WGs will be endorsed, not only as active members but also in leadership positions. The Action will promote their career development, strengthen their scientific and transferable skills as future leaders in XXXX research, and train them in the management and evaluation of European projects (MSCA, COST, ERC). The Action will also create Training Schools and workshops for PhD students, postdoctoral researchers, and YRIs in the most advanced state-of-the-art techniques and relevant skills for career development, such as scientific communication, problem solving, critical thinking, and good scientific practice, among others.
 - The Action will strictly support gender balance and equality thus contributing to the Sustainable Development Goal 5 (Achieve gender equality and empower all women and girls) defined by the United Nations. Gender aspects will be of high priority and managed according to the European legislation. Low representation of women in scientific society is still an issue even in developed countries and the Action will contribute to the solution according to the COST framework policy. Already now the proposal has an excellent gender balance as more than 45% of the Action proposers are female scientists. Gender balance is also considered in distribution of the Action leadership roles with main proposer being a female, as well as proposed members of the Management Committee, Core Group of the Action, and Working Group leaders. The Action Management Committee will actively control equal participation of female and male researchers in all Action activities during whole network duration.

How to apply in a nutshell

The screenshot shows the top navigation bar of the COST website with links for COST Actions, Funding, COST Academy, and About. A green 'Open call Fund your network' button is prominent. Below the navigation bar is a banner for the 'Open Call: A simple one-step application process'. A maintenance notice states: 'e-COST will be unavailable on 03/06/2025 12:00 - 13:00 CEST for maintenance'. The main content area features the 'e-COST' login form, titled 'The online platform of COST Association'. It includes fields for 'Email' (with the example 'noelia.romero@fecyt.es') and 'Password', a 'Remember me' checkbox, and links for 'Forgot password?' and 'New to e-COST? Create an account.'. A blue 'Login' button is at the bottom right of the form. At the very bottom, a copyright notice reads: 'Copyright © 2008 - 2025 COST, All rights reserved. Disclaimer - Cookie Policy - Privacy Notice' and a page display timestamp: 'page displayed on: 03/06/2025 at 12:14 - version: 2025.05.5'.

Guidelines

<https://www.cost.eu/funding/documents-guidelines/>

Participants planning to submit a proposal for a COST Action will need to refer to the COST Open Call proposers guidelines and to the Open Call Announcement available on the [Documents and Guidelines](#) page.

All proposals are submitted via the dedicated online platform of the COST Association used for grant management, known as e-COST.

Submissions is 21 October 2025 at 12:00 (noon) CEST. Please note that a reduced and all proposals must be submitted using the new template.

Proposals contributing to the knowledge advancement of science and technology proposals are

...selection and approval process and will ensure a simple, selection process, of COST.

Home > COST Actions > Become an external expert

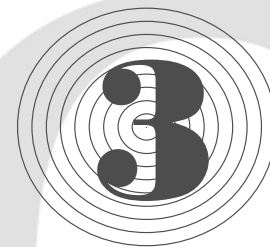

Call for COST external experts

We invite experts from all scientific areas to participate in the evaluation of proposals for COST Actions collected once a year through the COST Open Call.

By being available for occasional, short-term assignments you will contribute to fair, inclusive, and fully transparent scientific project assessment at European level.

A COST external expert must not necessarily belong to academic institutions. However, a university degree and considerable scientific or professional experience in the specific areas of expertise are a requirement.

PROCEDURE TO BECOME A MEMBER OF A COST ACTION'S MANAGEMENT COMMITTEE

Resultados Convocatoria COST y procedimiento de Nominaciones al Comité de Gestión de las 70 Acciones COST

57
Shares

20 de Mayo de 2025

[Ampliar la participación y difundir la Excelencia](#)

El pasado 19 de mayo, el CSO aprobó los resultados de la convocatoria del programa COST de 2024. En esta ocasión, se han aprobado 70 nuevas Acciones COST, de las cuales España ha conseguido coordinar 4 de ellas ocupando el tercer lugar en el ranking de países coordinando acciones COST. Además, otro indicador del éxito de participación española dentro del programa COST, es la elevada representación de nuestro país contando con casi 200 participantes de instituciones españolas en 53 acciones COST de las 70 que han resultado financiadas en esta convocatoria. Esto supone una representación de algo más del 75% de las acciones COST de reciente aprobación.

Algunos datos a destacar de las 70 acciones COST de reciente aprobación son:

- El 33 % de los principales proponentes son jóvenes investigadores e innovadores.
- El 40 % de los principales proponentes son mujeres.
- El 70 % de las propuestas cuentan con participantes de la industria/pymes.
- El 37 % de los principales proponentes provienen de un país objetivo de inclusión (ITC).
- El 56 % de las futuras redes han atraído a participantes de todo el mundo (países socios internacionales de COST, países vecinos cercanos y miembros socios de COST).
- El 51 % de todas las acciones abarcan al menos dos campos de ciencia y tecnología de la OCDE (Organización para la Cooperación y el Desarrollo Económicos), mientras que el 21 % abarca al menos tres campos.
- Las ciencias naturales lideran la lista como el campo científico más representado (representado en el 51 % de las acciones), seguidas de las ciencias médicas y de la salud (37 %), la ingeniería y la tecnología (31 %), las ciencias sociales (27 %), las humanidades (14 %) y las ciencias agrícolas (11 %).

La tasa de éxito es del 8,3 %.

Durante los meses de mayo y junio, se llevará a cabo el procedimiento nacional para la adhesión de nuestro país y nominación de los representantes nacionales en los Comités de Gestión (MC), de dichas Acciones.

En el documento adjunto se facilita la información relativa al procedimiento nacional de nominación en vigor. Además, pueden ver en el booklet el detalle de las 70 acciones COST.

Los proponentes principales y secundarios que han participado en las propuestas aprobadas son contactados directamente por la Coordinadora Nacional de COST (CNC) con el fin de evaluar su interés de participación en las nuevas Acciones. Se recuerda que es necesario seguir el procedimiento nacional publicado por todos los interesados en formar parte del Comité de Gestión de una Acción, aunque hayan participado en la preparación de la propuesta de Acciones aprobadas.

Durante el periodo del 21 de mayo hasta el 3 de junio (ambos incluidos) se recibirán las Expresiones de Interés tanto de proponentes principales o secundarios como de nuevos interesados, en este [enlace](#).

* El 3 de junio a las 17.00 horas finaliza el periodo de recepción de las expresiones de interés.

Durante el periodo del 4 de junio hasta el 16 de junio se configurarán los Comités de Gestión (MC) de cada una de las Acciones con los representantes designados por nuestro país. Además, se realizará la adhesión institucional de nuestro país a cada una de las Acciones y los nombramientos oficiales a través de la plataforma e-COST.
